PROFESSIONAL SUMMARY

Applied AI Engineer and AI Product Builder designing and operating production AI systems, LLM applications, and autonomous workflows.

Built and operate **12+ production AI systems** using **AI-augmented engineering** workflows (Cursor + Claude Code), delivering end-to-end execution from business problem → architecture → deployment → production operations.

Experience across **agent orchestration (LangGraph)**, **memory systems (RAG + pgvector)**, **evaluation frameworks**, **CRM automation**, **conversational AI**, and **cloud infrastructure (Oracle Cloud, AWS, Railway)**.

Background combines **7+ years of executive leadership in large-scale digital transformation** with hands-on AI product execution.

Strongest at turning ambiguity into shipped systems.

EXPERIENCE

Applied AI Engineer | Aldeazz.xyz (Founder-led AI Lab)

Panama / Remote | 2025–Present

Designed, built, and operate an AI-first ecosystem of **12+ production AI systems, autonomous agents, and automation pipelines** using **AI-augmented engineering** workflows (Cursor + Claude Code), workflow: <https://aideazz.xyz/sop-ai-ops.html>

Delivered end-to-end execution from concept and architecture to deployment and production operations across real business and personal use cases, with infrastructure primarily hosted on **Oracle Cloud Startup Program**.

Selected Systems

VibeJobHunter AIPA — AI Job Discovery & Qualification

- Evaluated 2,500 + opportunities through an automated discovery → scoring → qualification pipeline
- Supported 600+ tailored applications and 250+ personalized outreach messages, every send human-approved
- Engineered on LangGraph stateful orchestration with evaluation harnesses (golden-set scoring) and human-controlled decision gates
- Learns from my calls: a weekly feedback loop reads how I accept or reject leads in the CRM and re-tunes which roles it surfaces — a true human-in-the-loop

EspaLuz — Conversational AI Learning Platform

- Subscription AI relocation assistant in WhatsApp/Telegram (EN/ES)

- Persistent memory (RAG + pgvector)
- Early users across **19 countries**

CTO AIPA — Internal AI Operations & CRM Automation

- AI-assisted repository monitoring and technical decision support, with daily briefing pipelines across 12 active repositories.
- Built a centralized HubSpot CRM integrating multiple AI agents, aggregating 900+ deals and 500+ contacts with automated source, campaign, and pipeline attribution.
- Developed an AI-powered Lead Concierge that transforms inbound inquiries into personalized Claude-generated email drafts with one-tap human approval, automated sending, and complete CRM activity logging.
- Orchestrated end-to-end AI workflows using Make.com, Claude APIs, and Oracle Cloud, delivering production-grade human-in-the-loop automation for sales and operations.

CMO AIPA — AI Marketing & RevOps Automation

- Built an AI-powered GEO/AEO & Technical SEO engine with automated bilingual content publishing and structured data for AI search visibility.
- Developed Atlas Shifted AIPA, an AI marketing strategist for competitive intelligence, creative ideation, and campaign optimization (live at <https://webhook.aideazz.xyz/whitespace/atlas.html>)
- Automated HubSpot RevOps with AI lead qualification, CRM orchestration, campaign attribution, and GA4 reporting.
- Built multi-channel marketing automation across LinkedIn, Instagram, and web, synchronizing product launches with content distribution.

ATUONA — AI Video Generation Studio (live at atuona.xyz/aifilmstudio)

- Multimodal AI generation pipeline: LLM script generation → Flux image generation → AI text-to-video with multi-provider fallback (Google Veo, Luma, Runway, Kling) → automated video assembly → published gallery.

- Automated video production: Orchestrates voiceover, soundtrack, scene composition, transitions, rendering, and publishing to generate finished videos with minimal manual intervention.
- Modular regeneration workflows: Persists intermediate assets, enabling individual scenes to be regenerated or edited without rebuilding the entire video.
- AI-generated storytelling: Published gallery of short films demonstrating end-to-end automated content creation for creative and marketing use cases.
